MCA student and BCA graduate with strong foundations in Java, Python, DBMS, Data Structures, and Web Development. Passionate about software development and problem solving. Built multiple academic projects using Java, MySQL, Python, HTML, CSS, and JavaScript. Quick learner with strong communication skills, seeking an entry-level Software Developer or IT role.

PROJECTS

Food Waste Management System

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a responsive web platform connecting food donors with NGOs to reduce food waste.
- Designed and implemented user-friendly interfaces for donors, NGOs, and administrators.
- Built an admin dashboard to manage users, donations, and requests efficiently.

Weather App (API-Based)

Technologies used: HTML, CSS, JavaScript, REST API (WeatherAPI)

- Developed a weather application that provides real-time weather information based on user input.
- Integrated a REST API to fetch live weather data, including temperature, humidity, and weather conditions.
- Designed a responsive and interactive user interface using HTML, CSS, and JavaScript.

Student Management System

Technologies used: Java, JDBC, MySQL

- Developed a Java-based desktop application to manage student records efficiently.
- Implemented CRUD operations using JDBC and MySQL.
- Applied Object-Oriented Programming (OOPs) principles to ensure modular and maintainable code.

Password Strength Checker

Technologies used: Python

- Developed a Python application to evaluate password strength based on security validation rules.
- Implemented checks for password length, uppercase and lowercase letters, numbers, and special characters.
- Generated real-time feedback and suggestions to help users create stronger passwords.

EDUCATIONAL BACKGROUND

Bachelor of Computer Applications

University of Burdwan | **CGPA - 7.2**
[2022 - 2025]

Master of Computer Applications (Pursuing)

Techno India University | **CGPA - 8.8**
[2025 - Present]

TECHNICAL SKILLS

Programming Languages : Java, Python, C, C++

Web Development : HTML, CSS, JavaScript

Database : MySQL, JDBC

Core Concepts : OOPs, DBMS, Data Structures

Tools Used : Git, VS Code

EXPERIENCE

Academic Project Experience

- Developed multiple software projects using Java, Python, HTML, CSS, JavaScript, PHP, and MySQL.
- Collaborated with team members to design, develop, test, and implement project features.
- Applied Object-Oriented Programming (OOP), DBMS, JDBC and Data Structures in academic projects.
- Used Git and VS Code for development and version control.
